<b>1</b>	<b>Reproductive Anatomy and Physiology of the Nonpregnant and Pregnant Cow</b> .....	<b>1</b>
1.1	Introduction .....	2
1.2	External Genitalia (Vulva and Vaginal Vestibule) .....	3
1.3	Internal Genitalia (Vagina, Uterus, Oviducts, Ovaries and Ligaments) .....	4
1.4	Pelvis.....	7
1.4.1	Anatomy .....	7
1.4.2	Pelvic Shape, Size and Angulation .....	9
1.5	Hypothalamic-Pituitary-Gonadal Axis.....	11
1.6	Oestrous Cycle.....	12
1.7	Pregnancy.....	15
1.7.1	Placenta .....	16
1.7.2	Foetomaternal Interface.....	18
1.8	Uterine Involution.....	19
	References.....	22
<b>2</b>	<b>Problems and Complications Occurring in Mid and Late Pregnancy</b> .....	<b>25</b>
2.1	Introduction .....	26
2.2	Uterine Torsion.....	26
2.2.1	Etiopathogenesis.....	27
2.2.2	Clinical Signs and Diagnosis.....	28
2.2.3	Treatment and Prognosis .....	30
2.3	Vaginal and Cervicovaginal Prolapses .....	33
2.3.1	Etiopathogenesis and Diagnosis .....	33
2.3.2	Treatment and Prognosis .....	34
2.4	Hydrops .....	38
2.4.1	Hydrallantois.....	38
2.4.2	Hydramnios.....	38
2.5	Abortion .....	40
2.6	Foetal Maceration .....	42
2.7	Foetal Mummification .....	44
	References.....	48
<b>3</b>	<b>Normal Birth (Eutocia)</b> .....	<b>51</b>
3.1	Introduction .....	52
3.2	Parturition Induction and Hormonal Changes .....	52
3.3	Normal Foetal Orientation and Assessment .....	56
3.4	Preparatory Period and Prodromal External Signs of Parturition .....	57
3.5	Stages of Parturition .....	60
3.5.1	Stage I (Dilatation Phase) .....	62
3.5.2	Stage II (Foetal Expulsion Phase) .....	64
3.5.3	Stage III (Placental Expulsion Phase).....	65
3.6	Pain Caused by Parturition .....	67
3.7	Foetal Physiologic Changes During Parturition.....	68
3.7.1	Respiratory Changes.....	70
3.7.2	Cardiovascular Changes .....	71

3.7.3	Neuroinhibition and Neurostimulation .....	72
3.8	<b>Maternal Behaviour</b> .....	74
	References .....	77
4	<b>Dystocia and Other Abnormal Occurrences</b>	
	<b>During Calving</b> .....	81
4.1	Introduction .....	83
4.2	Scoring the Degree of Dystocia .....	83
4.3	Classifying the Causes of Dystocia .....	86
4.4	Foetopelvic Disproportion and Absolute Foetal Oversize .....	88
4.5	Foetal Maldisposition .....	90
4.6	Foetal Shape Alterations.....	93
4.7	Inadequate Size of the Birth Canal.....	95
4.8	Inadequate Forces.....	97
4.9	<b>Risk Factors of Dystocia</b> .....	97
4.9.1	Calf Birth Weight.....	99
4.9.2	Foetal Sex.....	99
4.9.3	Parity .....	100
4.9.4	Pregnancy Length.....	100
4.9.5	Nutrition .....	100
4.9.6	Climate/Season.....	102
4.9.7	Other Relevant Risk Factors.....	102
4.10	<b>Consequences of Dystocia</b> .....	103
4.10.1	Dam.....	103
4.10.2	Calf Trauma and Perinatal Mortality .....	103
4.11	<b>Breeding Cows for Ease Calving</b> .....	106
	References .....	109
5	<b>Assisted Vaginal Delivery and Newborn Calf Care</b> .....	113
5.1	Introduction .....	114
5.2	Calving Settings.....	114
5.3	The Appropriate Time for Obstetrical Intervention.....	115
5.4	Obstetrical Examination .....	116
5.5	<b>Assisted Foetal Traction</b> .....	121
5.5.1	Stretching the Vulva .....	122
5.5.2	Applying Obstetrical Chains or Ropes.....	122
5.5.3	Pulling the Foetus .....	124
5.6	<b>Immediate Post-calving Assistance of the Dam</b> .....	127
5.7	<b>Newborn Calf Care</b> .....	129
5.7.1	Immediate Assistance and Calf Resuscitation .....	129
5.7.2	Disinfection of the Umbilical Cord.....	134
5.7.3	Colostrum .....	135
5.7.4	Soft Tissue and Bone Injuries .....	138
5.7.5	Maladjustment Syndrome .....	139
	References .....	143
6	<b>Obstetrical Manoeuvres</b> .....	145
6.1	Introduction .....	147
6.2	<b>Foetal Accessibility and Ease of Handling</b> .....	148
6.2.1	Blocking Cow's Straining and Myometrial Contractions.....	148

6.2.2	Lubrication of the Birth Canal and Foetal Fluid Replacement.....	151
6.2.3	Obstetrical Equipment and Its Uses .....	151
6.3	<b>Classification of the Obstetrical Manoeuvres</b> .....	152
6.3.1	Retropulsion or Repulsion .....	152
6.3.2	Rotation .....	152
6.3.3	Version.....	153
6.3.4	Extension.....	154
6.3.5	Forced Traction.....	154
6.4	<b>Foetal Mutation: Anterior Presentation</b> .....	154
6.4.1	Carpal Flexion (Knee Joint Flexion).....	154
6.4.2	Shoulder-Elbow Flexion or Elbow Lock Posture .....	155
6.4.3	Shoulder Flexion.....	155
6.4.4	Deviation of the Head.....	155
6.5	<b>Foetal Mutation: Posterior Presentation</b> .....	155
6.5.1	Hock Flexion.....	155
6.5.2	Hip Flexion or "Breech Presentation".....	156
6.6	<b>Foetal Mutation: Transverse Presentation</b> .....	156
6.6.1	Ventro-transverse Presentation .....	157
6.6.2	Dorso-transverse Presentation.....	158
6.7	<b>Foetal Mutation: Ventral and Lateral Positions</b> .....	158
6.8	<b>Foetal Mutation: Twins</b> .....	158
	References .....	161
7	<b>Foetotomy</b> .....	163
7.1	<b>Introduction</b> .....	164
7.2	<b>Indications and Contraindications of the Foetotomy</b> .....	164
7.3	<b>Foetotomy Techniques</b> .....	165
7.3.1	Percutaneous Versus Subcutaneous Foetotomy .....	165
7.3.2	Total Versus Partial Foetotomy .....	165
7.3.3	Equipment and Other Material .....	168
7.4	<b>Preparation of the Dam</b> .....	169
7.4.1	Dam Position and Cleanliness .....	170
7.4.2	Premedication and Epidural Anaesthesia .....	170
7.4.3	Percutaneous Foetotomy Manipulation .....	170
7.5	<b>Cut Sequence of Total Foetotomy: Anterior Presentation</b> .....	171
7.5.1	Amputation of the Head and Neck.....	171
7.5.2	Cut of the Forelimb(s) .....	173
7.5.3	Abdominal Detruncation and Evisceration .....	173
7.5.4	Bisection of the Pelvis.....	174
7.6	<b>Cut Sequence of Total Foetotomy: Posterior Presentation</b> .....	174
7.7	<b>Partial Foetotomy in Abnormal Postures, Hiplock and Foetal Abnormalities</b> .....	175
7.8	<b>Postoperative Foetotomy Care and Complications</b> .....	176
	References .....	178
8	<b>Caesarean Section</b> .....	181
8.1	<b>Introduction</b> .....	182
8.2	<b>Indications, Contraindications and Complications of the Caesarean Section</b> .....	182
8.3	<b>Surgical Approaches</b> .....	183

8.3.1	Left and Right Paralumbar Laparotomy.....	183
8.3.2	Ventral, Ventrolateral and Left Oblique Laparotomy.....	185
8.4	<b>Facilities, People and Equipment Requirements</b> .....	186
8.4.1	Facilities on the Farm .....	186
8.4.2	Material Requirement.....	186
8.5	<b>Preoperative Cares</b> .....	187
8.5.1	Premedication and Pre-anaesthesia Assessment.....	187
8.5.2	Preparation of the Surgical Site.....	191
8.6	<b>Local and Regional Anaesthesia</b> .....	191
8.6.1	Paravertebral Anaesthesia .....	192
8.6.2	Inverted-L Anaesthesia .....	194
8.6.3	Line Block.....	195
8.7	<b>The Caesarean Section Technique</b> .....	195
8.7.1	Left Paralumbar Laparotomy .....	195
8.7.2	Ventral Midline and Paramedian Approaches .....	202
8.7.3	Ventrolateral Approach.....	202
8.7.4	Left Oblique Approach.....	202
8.8	<b>Postoperative Care</b> .....	203
	References .....	207
9	<b>Puerperal Complications in the Dam</b> .....	209
9.1	<b>Introduction</b> .....	210
9.2	<b>Uterine Prolapse</b> .....	210
9.2.1	Aetiopathogenesis and Diagnosis .....	210
9.2.2	Treatment.....	211
9.2.3	Prognosis.....	214
9.3	<b>Birth Canal Bruises and Lacerations</b> .....	215
9.4	<b>Calving Paralysis</b> .....	218
9.4.1	Obturator Nerve Paralysis .....	218
9.4.2	Sciatic Nerve Paralysis .....	218
9.4.3	Tibial Nerve Paralysis.....	220
9.4.4	Downer Cow Syndrome.....	220
9.5	<b>Retained Foetal Membranes</b> .....	223
9.5.1	Aetiopathogenesis and Diagnosis .....	224
9.5.2	Treatment and Prevention .....	225
9.6	<b>Clinical Metritis</b> .....	226
9.6.1	Aetiopathogenesis and Diagnosis .....	227
9.6.2	Treatment, Prognosis and Prevention .....	230
9.7	<b>Endometritis</b> .....	232
	References .....	235
10	<b>Cows' Obstetrical Case Studies in Images</b> .....	239
10.1	Removal of a Mummified Foetus .....	241
10.2	<b>Suture Retention (Vertical Mattress) on the Vulva After Cervicovaginal Prolapse Replacement</b> .....	242
10.3	<b>Using Metallic Vaginal Pins</b> .....	244
10.4	<b>Perosomus Elumbis</b> .....	245
10.5	<b>Spina Bifida</b> .....	245
10.6	<b>Schistosomus Reflexus in a Twin Pregnancy</b> .....	246
10.7	<b>Visceral Presentation in a Schistosomus Reflexus Case</b> .....	246

10.8	<b>Vaginal Delivery of a Schistosomus Reflexus by Foetotomy</b> .....	247
10.9	<b>Cleft Palate</b> .....	247
10.10	<b>Kramer Curve Calf Snare: Technical Procedures</b> .....	248
10.11	<b>Lifting the Downer Cow Using a Bagshaw Hoist</b> .....	249
10.12	<b>Metallic Skin Staples Use</b> .....	250
10.13	<b>Uterine Prolapse in “Milk Fever” Cow</b> .....	251
10.14	<b>Umbilical Hernia</b> .....	252
10.15	<b>Differential Diagnosis of Uterine Content Alterations by Transrectal Ultrasonography in Postpartum</b> .....	254
	References .....	255
11	<b>Self-Evaluation in Calving, Obstetrical and Calf Management Subjects</b> .....	257
11.1	<b>Instructions</b> .....	258
	References .....	276
	<b>Supplementary Information</b>	
	Appendix: Drug Posology for Cows .....	278
	Reference.....	279
	Index .....	281
